

Vmoksha's CSR Activity for Year 2010

School Kit Distribution Drive

From what we get, we can make a living; what we give, however, makes a life.

Vmokshites have always been conscious about their social responsibility and contributed to the society in the best possible way. This time we participated in a drive organized by the NGO –Youth for Seva in July 2010 to distribute school kits and notebooks to underprivileged school children in and around Bangalore. As always Vmokshites came out generously to donate for this noble cause. The school kits were distributed to 100 children from underprivileged background in Govt. High School Agara.

The children at the Agara High School were extremely delighted to receive the School kit and notebooks in the beginning of the new session. They showcased their talent by performing cultural activities. We distributed sweets and spent some time with the children, encouraging them to do well in life.
